Simple Instructions to Have Your Garden Center Listed for FREE!

1. Provide current contact information - Name, phone, garden center address.
2. Website or Facebook page URL. *(Note: Only one URL can be listed.)*
3. Garden center photo. **TIP:** The best photos are those with shoppers in the store or happy customers and/or sales people. An overhead photo of ten acres of glass does not inspire shopping.
4. Provide a short paragraph of why your daughter's friends would want to shop at your store. Be creative! Tell someone why they want to visit in a short paragraph. Take a look at other listings on the App - they are the best guides to emulate.

Only garden centers that have approached me are listed.

I am not calling or writing anyone and asking retailers to be listed.

Send everything to Dr. Armitage at amarmitage@earthlink.net

Don't Forget!

Promote the App to your customers and fans through your website, e-blasts and other forms of promotion. You are on the App, so why would you not promote it? It costs nothing and gives you one more thing to talk about in your communications!
