## PINK SNOW SHOWERS™

### SPRING BEAUTY

A weeping tree that's sure to bring joy to homeowners in spring. Its elegant, arching branches are a flurry of sweet pink flowers in early spring, standing out against the silvery branches. Serrated, dark green foliage has no issue with unsightly shot hole disease, staying neat and clean all season before developing into red and orange tones in fall.

This vigorous grower develops into a showpiece specimen quickly.

- USDA 4 AHS 8
- 35' TALL + 25-30' WIDE
- FULL SUN
- SHAPE: WEEPING
